Lynn,

Jared Anderson called today with some questions on the annual report and our permit fees. He will be filling out the report and sending it in. He plans on meeting with John Blake to discuss the terms of his state lease. Jared is trying to decide if closing out the permit is in his best interest financially. He will be contacting you if he wants to close the file out.

I did not check to see if he paid his permit fee. He thought he had done something to avoid paying the fee - I told him the only options were pay the fee or close the file.

tony
